

## Plastic mounting hook

### APPLICATION METHOD:

It is used for quick installation of pipes from 16 to 32 diameter to hard surfaces. The special composition of polymers allows you to take the shape of the pipe without losing its rigidity. A significant advantage of the product is high strength, speed and ease of installation.

### SPECIFICATION:

- material: polypropylene;
- color: white;

Art.	Name	Length, mm	Packaging, pcs
0101011205	The hook is single	100	500/20
0101011206	The hook is double	100	500/20
0101011207	The hook is single	120	500/20
0101011204	The hook is double	120	500/20
